

IT'S AN INVESTMENT

Scholarships and fellowships enable the University to remain competitive in attracting and retaining the most promising and deserving students. UT ranks among the most affordable major independent universities, yet a majority of our students (87 percent) depend on financial help for their educations. Each new endowed scholarship has a direct impact on students by attracting the brightest talent and assisting those who might not otherwise be able to attend UT. Through the scholarship endowment, the University seeks to make the exceptionally rich UT learning opportunity possible for all students with academic potential and the desire to learn.

"The Bailey Family has always had a passion for education. We think it is especially important now to provide financial assistance in light of the current economic crisis. More than ever, students need help to fulfill their dreams. As costs continue to rise, it is only right for those of us who have enjoyed the benefits of an excellent college education to help make that experience attainable to promising young students."
